**DEPARTMENT OF SCIENCE AND TECHNOLOGY
METALS INDUSTRY RESEARCH AND DEVELOPMENT CENTER**

The ATF was established to help the local automotive and component manufacturers develop their products, maintain quality and pass conformity check to accepted international standards.

The ATF offers the following services:

- Tension/compression/flexure/deflection test
- Hardness testing
- Microscopy and metallography
- Portable elemental analysis
- Hardness of rubber
- Bend test for pipes
- Base metal thickness
- Vibration test
- Roughness testing
- Data monitoring analysis
- Friction test
- Seat belt tester
- Tire endurance testing
- Corrosion test
- Coating thickness tester
- Non-destructive testing
- Chemical analysis
- Repeated loading test
